Did you know UCP of Long Island...

- Provides services to 35% of children and adults with cerebral palsy; 65% of those we serve have Autism, Down Syndrome, Epilepsy, Traumatic Brain Injury and Tourette Syndrome to name just a few.
- Spends 92 cents of every dollar on programs and services.
- Mission is to advance the independence, productivity and full citizenship of people with cerebral palsy and other disabilities.
- Provides employment-related services, such as career assessment, counseling, and job placement, so a person with a disability can become employed and independent.
- Is at the forefront of providing Early Intervention, Pre-School and School Age educational programs. The Children's Center has an array of educational and therapeutic services to promote the development of a child with a disability.
